Genomic Applications Partnership Program (GAPP) - NOW OPEN

Ontario Genomics has announced that Round 9 of Genome Canada's [Genomic Applications Partnership Program](#) is now open.

The Genomic Applications Partnership Program (GAPP) funds downstream research and development (R&D) projects that promote the commercialization and translation of genomics-derived technologies which address real world opportunities and challenges identified by industry, government, not-for-profits and other “Receptors” of genomics knowledge and tools.

The program provides a unique opportunity for Receptor organizations to collaborate with an 'omics researcher, and to leverage their R&D investments with public funding.

Key Program Highlights:

- **Budget:** \$300K – \$6M (total)
- **Co-funding:** 1/3 Genome Canada (max), 1/3 Receptor (min), 1/3 Other
- **Award duration:** 1 – 3 years
- **Stage:** Downstream R&D/validation/pilot
- **Funding recipient:** Genome Canada award to academic partner only

To Apply:

Please contact [Shobha Ramsubir](#), Senior Manager, Business Development & Research, to determine project eligibility and to obtain the Expression of Interest (EOI) form.

EOI forms are due to Ontario Genomics and UofT Research Office (CC

elaine.footman@utoronto.ca) on May 15th, 2017 at 9 am ET.

NOTE: To better prepare applicants for this competition, Ontario Genomics will host an external panel review of EOIs in early June. All eligible applicants must be available to present in person at that time.
