

Application for Grant Miller Cancer Research Grants

Applicant:		Tel:	
Address:		Fax:	
		Email:	
		Rank:	
		University Department:	
		Hospital or Research Institute Division:	
Percentage of Time Available for Research (Minimum Requirement 50%):			
Project Title:			
Signatures: (Applicant)		(Hospital Div/Dept Head) (Signature)	
_____		_____	
(Date)		(PrintName) _____ (Date) _____	
University Department Chair's signature guarantees that this application has received internal review for content and merit prior to its submission:		Internal Reviewer (NOTE: This should be someone other than the Department Chair)	
(Signature)		(Signature)	
_____		_____	
(Print Name) _____ (Date) _____		(Print Name) _____ (Date) _____	
<p>Submit 1 original application (no staples) and an electronic version. Electronic version should be comprised of 4 separate PDF files: (1) Application form, Section 1-3; (2) Research Proposal, Section 4; (3) Supplementary materials; and (4) Common CV. E-mail PDF attachment to cindy.faber@utoronto.ca</p>			
Please list all Co-Investigators (please add their CV to the Supplementary Materials section);			
Name:		Dept./ Institution:	
Name:		Dept./ Institution:	
Name:		Dept./ Institution:	
Please list all Collaborators (no CV is required for collaborators);			

In keeping with the Faculty of Medicine Research Strategic Plan, please identify which thematic areas and strategic priorities apply to your research.

Thematic Areas – please check the theme that most applies to your project

- | | |
|--|---|
| <input type="checkbox"/> Bio – Engineering/ Technology Development | <input type="checkbox"/> Immunity/Inflammation/Infection |
| <input type="checkbox"/> Cancer | <input type="checkbox"/> Metabolism/ Nutrition |
| <input type="checkbox"/> Cardiovascular | <input type="checkbox"/> Musculoskeletal |
| <input type="checkbox"/> Computational Biology | <input type="checkbox"/> Molecular Cell Biology |
| <input type="checkbox"/> Clinical Research | <input type="checkbox"/> Neuroscience and Brain Health |
| <input type="checkbox"/> Development/Child/Maternal Health | <input type="checkbox"/> Drug Development/ Toxicology |
| <input type="checkbox"/> Education/ Knowledge Translation | <input type="checkbox"/> Population Health/ Global Health |
| <input type="checkbox"/> Genetics Genomics-Proteomics | <input type="checkbox"/> Regenerative Medicine |
| <input type="checkbox"/> Health Services/ Health Policy | <input type="checkbox"/> Other: _____ |
| <input type="checkbox"/> Imaging | _____ |

Strategic Priorities – please check the Priority that most applies to your project

- Human Development
- Global Health
- Neuroscience & Brain Health
- Complex-Disorders- System Management

Definitions for these terms can be found in the [Faculty of Medicine Strategic Plan document](#). The definitions of the Thematic Areas, also called Clustered Areas of Emphasis, are found on page 18 and definitions of the Strategic Priorities start on page 13.

2. RESEARCH ENVIRONMENT

Briefly describe your research environment at the University of Toronto or research institute, commenting on human and other resources available to you such as academic associates or collaborators, technical assistance, lab space, equipment, etc.; up to one (1) additional page (1" margins all around) may be attached.

3. ABSTRACT OF PROPOSED RESEARCH

One (1) page, single-spaced, keep within the 1" margins outlined. Must be written clearly with a minimum use of jargon and LIMITED USE OF ACRONYMS. Must be written to be understandable to a scientifically educated but not necessarily expert audience.

4. OUTLINE OF PROPOSED RESEARCH

Provide a description of the intended major proposal, including objectives, background, methodology and analysis along with the rationale for the proposed feasibility study. Also indicate the criteria to be used in deciding if the objectives of the feasibility study have been met and how you propose to decide whether a major study is warranted. **STRICT LIMIT is five (5) pages, single-spaced, single-sided, using Arial (a minimum 12-point font size), not including references or essential figures with short legends. A margin of 1" on all sides of the pages of the proposal must be kept. Excess pages will be discarded.**

5. SUPPLEMENTARY MATERIAL

A maximum of two (2) relevant collaborative letters and/or two (2) relevant reprints or preprints by the applicant may be attached. Any additional material will be removed from the application prior to being sent to reviewers.
