NSERC’s New “Alliance” Grant - Information Session
May 29, 2019 • Reply to Kristina Dinevska

The Innovations & Partnerships Office will be hosting an information session of the new NSERC Alliance grant program.

NSERC is currently launching the new “Alliance” Grant – the Research Partnerships Program consolidating and replacing the previous suite of programs including Engage, Collaborative Research and Development (CRD), Industrial Research Chair (IRC), Strategic Partnerships programs (SPG-P and SPG-N), among others. The older programs have been phased out, and applications for the last of them (Engage, CRD) will only be accepted until May 31. Existing awards under the previous programs will be managed under current rules for the duration of their term.

Information about the new Alliance program can be found on the NSERC site at: http://www.nserc-crsng.gc.ca/Innovate-Innover/alliance-alliance/index_eng.asp

NSERC is currently accepting applications for large Alliance proposals only (in excess of $150K/yr NSERC support), and will shortly expand intake to include applications for lesser amounts, analogous to the majority of the previous programs. All applications will be accepted on a
rolling basis after the rollout is complete - there will be no application deadlines under Alliance.

NSERC personnel will be presenting details of the Alliance program at an information session on the downtown St. George campus on the afternoon of June 26. PIs and other interested members of the UofT community are welcome to attend.

DATE: Wednesday, June 26 2019
TIME: 1:30pm
LOCATION: Bahen Centre (40 St. George), Rm 1170.
PRESENTERS: Alejandra de Almeida (NSERC Ontario Regional Office)

Katie Wallace (NSERC Ottawa Office)

After reviewing the program details at the link posted above, remaining questions can be addressed to alliance@nserc-crsng.gc.ca
