2022 HFSP Research Grants

The Human Frontier Science Program (HFSP) supports innovative basic research that applies novel and interdisciplinary approaches to understand fundamental biological problems and includes scientific exchanges across national and disciplinary boundaries.

Grants are for 3 years and made to international teams of 2 – 4 members who have not collaborated before. The amount is dependent upon team size, up to $465,000 per year for a team of four.

Research Grants: Program is for independent scientists at all stages of their careers.

Research Grants – Early Career (formerly Young Investigator Grants): Program is for teams of researchers who are all within 5 years of establishing an independent laboratory and within 10 years of obtaining their PhDs.

Applicants are advised to use the quiz on the HFSP website to check their eligibility and to read the guidelines carefully.

Internal deadline: March 26, 2021
**Sponsor Deadline:** Applicants can initiate an application via the HFSP Extranet until March 18, 2021. Submission deadline for the letter of intent is March 30, 2021.
