NSERC Alliance Grants Workshop – Confirmed Details

March 9, 2020 • Reply to Colin Swift

A recent Research Alert reported that NSERC, the Natural Sciences and Engineering Research Council, recently launched its new Alliance grant program, replacing previous Research Partnerships Programs such as Engage, CRD, IRC, and Strategic Partnerships. It announced that NSERC personnel would be presenting a workshop on the St. George campus to provide an update and answer your questions.

That workshop has now been confirmed:

Date: Wednesday April 8, 2020
Time: 1:00pm-3:00pm
Location: Bahen Centre (40 St. George), Rm 1190

NSERC will be on campus to give a workshop providing an in-depth look at Alliance Grants. The session will focus on how to apply to Alliance, the newly opened Option 2 stream, and an overview of application best practices. The workshop will be followed by a question and answer period.

Interested researchers are invited to submit their questions in advance to the Innovations & Partnerships Office (IPO). Questions will be collected, curated, and forwarded to NSERC to ensure they are addressed at the workshop. Please use “NSERC Alliance Question” as the email title, and
send it to Colin Swift, Business Development Officer – Industry Partnerships by Friday March 20, 5pm EDT.
